

### 13. Mustafa "Bearly" Escapes

Mustafa watching the mother bear and her cubs cross the river when one cub slipped and was carried downstream. Mustafa raced upstream along the riverbank until he saw the cub in the water. He waded in and picked up the bawling cub. He carried the cub to shore and then heard a loud roar. He looks up and saw the angry mother bear charging toward him. Mustafa quick dropped the cub and scrambled up a nearby tree. The mother bear was right behind him. She was inches away as she swipped at him with her huge paw. Luckily the sudden crying of the cub distracted him. She turned toward the cub. Mustafa dropped to the ground and raced home.

As the bear cub tried to cross the river, he lost his footing on the slippery rocks and fell into the rushing water. The rain-swollen river carried him downstream from where Mustafa was standing.
